

Fig. 1. Turbine engine with a  
rotor and a stator. The rotor is  
shown in the position of maximum  
clearance. The stator is shown in  
the position of minimum clearance.  
The rotor is shown in the position  
of maximum clearance. The stator  
is shown in the position of minimum  
clearance. The rotor is shown in  
the position of maximum clearance.  
The stator is shown in the position  
of minimum clearance. The rotor  
is shown in the position of maximum  
clearance. The stator is shown in  
the position of minimum clearance.
